Education

SMK Kesehatan Bhakti Kencana
Health services: Level II Nursing Sector

Sep 2020

Experience

Nursing Assistant

June 2019 – Aug 2019

Sariningsih Hospital, Indonesia

Trained by doctors and assisted doctors to check for patients' wellness

- Mixed medicine and vitamin from infusion into injections
- Applied hygiene practices and informed patients of how to improve their personal hygiene
- Assisted patients to help alleviate their mobility issues with full range of motion exercises
- Helped doctors perform special procedures
- Transferred patients with wheelchairs and stretchers

Community Services

Wellness check

Aug 2019 – Present

Bandung & Cimahi, Indonesia

Due to my strong passion to help others, I took what I've learnt from Sariningsih Hospital and applied it to help fellow neighbors and family members whereas needed

- Check for 4 main vitals
 - Body temperature
 - Respiration rate
 - Pulse rate
 - Blood pressure
- Assist in wound cleaning especially for diabetics
- Test for blood sugar, cholesterol, and gout with own devices
- Aid those who are bedrest to increase their mobility
